

REST API

Trial list

/api/api_trials_list.php

The screenshot shows the Insomnia REST client interface. The title bar reads "Insomnia - AZ-WebApp (Local) - Trials list". The menu bar includes "Application", "Edit", "View", "Window", "Tools", and "Help". The main interface is divided into several sections:

- Left Sidebar:** Contains a "Filter" input and a list of endpoints with their methods: "GET Trials list", "GET Trials detail", "GET Last update", "POST Trials upload", "POST Trials create", "POST Trials update", "POST Trials delete", and "POST Trials delete all".
- Top Bar:** Shows the selected endpoint "GET .base_url /api/api_trials_list.php" and a "Send" button. The response status is "200 OK", the time is "2.1 ms", and the size is "357 B".
- Body Tab:** Displays a large bug icon and the text "Enter a URL and send to get a response". Below this, it says "Select a body type from above to send data in the body of a request" and "Introduction to Insomnia" with a link icon.
- Preview Tab:** Shows the JSON response in a syntax-highlighted format:

```

Last update

/api/api_last_update.php

The screenshot shows the Insomnia REST client interface. The title bar reads "Insomnia - AZ-WebApp (Local) - Last update". The menu bar includes "Application", "Edit", "View", "Window", "Tools", and "Help". The main interface is divided into several sections:

- Left Sidebar:** Contains a "Filter" input and a list of API endpoints. The "Last update" endpoint is selected and highlighted.
- Top Bar:** Shows the request method "GET", the URL "http://localhost:3000/_base_url/api/api_last_update.php", and a "Send" button. The response status is "200 OK", the time is "2.23 ms", and the size is "23 B".
- Body Tab:** The "Body" tab is selected, showing a large grey bug icon and the text "Enter a URL and send to get a response". Below this, it says "Select a body type from above to send data in the body of a request" and provides a link to "Introduction to Insomnia".
- Preview Tab:** The "Preview" tab is selected, showing the response body as a JSON string: `"22\07\2022 07:02 pm"`.

Trials upload

/api/api_trials_upload.php

The screenshot displays the Insomnia REST client interface for a local web application. The main window title is "Insomnia - AZ-WebApp (Local) - Trials upload". The top menu bar includes "Application", "Edit", "View", "Window", "Tools", and "Help". Below the menu, the "Insomnia / AZ-WebApp" dropdown is visible. The left sidebar shows a list of endpoints, with "POST Trials upload" selected. The main panel shows the details of the selected endpoint, including the method "POST", the URL "http://localhost:3000/api/api_trials_upload.php", and a "Send" button. The request is configured as a "Multipart" request with one part named "file" containing the file "COVID19-web.MINIMAL.csv". The response status is "200 OK" with a response time of "18.5 ms" and a response size of "0 B". The response body is empty, showing "No body returned for response".

Trial delete

/api/api_trials_delete.php?TrialID=<TrialID>

The screenshot displays the Insomnia REST client interface for a local web application. The title bar reads "Insomnia - AZ-WebApp (Local) - Trials delete". The menu bar includes "Application", "Edit", "View", "Window", "Tools", and "Help". The sidebar on the left shows a list of endpoints under "Local" and "Cookies" tabs, with "POST Trials delete" selected. The main panel shows a POST request to the URL `_.base_url /api/api_trials_delete.php?TrialID=NCT00173563`. The "Send" button is highlighted in purple. The response status is "200 OK" in a green box, with a response time of "1.96 ms" and "0 B" of data. The response body is empty, showing "No body returned for response". The interface also includes tabs for "Body", "Auth", "Query", "Header", and "Docs", and a "Preview" tab for the response. A large grey bug icon is visible in the background of the main panel.
